

## **REMARKS**

In the present application, claims 1-18 and 21-29 are pending. Claims 1-18 and 21-27 are rejected. Claims 28 and 29 are objected to.

### **Claim Amendments**

In preparing the previous response to the Office Action dated March 21, 2007 an incorrect version of the claims was used. Therefore, claims 1-18 and 21-29 are canceled and new claims 30-55 are added. Claims 30-53 reflect claims 1-8, 10-18 and 21-27 as they were presented for the previous Office Action. Claims 54 and 55 reflect claims 28 and 29 which were added in the previous response. Claim 56 reflects claim 19 as originally filed.

Claims 30, 43, 46 are changed from the original claims to include elements presented in claims 9 (providing a reading guide) and 28 (moving the reading guide based upon a determination that the user is approaching the end of a line of text).

Claims 38-42 have been changed from the original to depend from claim 30.

Claim 49 is changed from the original claims to include an element presented in claim 28 (moving the reading guide based upon a determination that the user is approaching the end of a line of text).

Claim 54 is changed from the previously presented version to remove the element that has been added to claim 46 (moving the reading guide based upon a determination that the user is approaching the end of a line of text).

No new matter is added.

Independent claims 30, 43, 46 and 49 recite similar elements, e.g. "repositioning the reading guide in response to the eye tracking apparatus determining the user approaches the end of a line of text" as in claim 30. Similar elements were deemed allowable subject matter by the examiner (see Allowable Subject Matter in the present Office Action, page 15). Clearly, claims 30, 43, 46 and 49 are in a condition for allowance.

As all of claims 31-42, 44-45, 47-48 and 50-56 depend upon claims 30, 43, 46 and 49, they

Response to Office Action dated June 14, 2007

are likewise in condition for allowance.

For the foregoing reasons, the Applicants believe that each and every issue raised by the Examiner has been adequately addressed and that this application is in a condition for allowance. As such, early and favorable action is respectfully solicited.

Respectfully submitted:
